Semicon cos shift focus, eye niche campus talent

Veena.Mani@timesofindia.com

Bengaluru: Over the past few years, semiconductor companies have adopted a more targeted strategy for campus hiring. While traditionally they followed conventional campus recruitment methods, the niche nature of the sector and limited candidate numbers have pushed these companies to collaborate closely with premier institutions like the IITs, NITs, and IISc to handpick engineering graduates.

Delta Electronics, for example, runs a specialized program called the Delta Class—a curriculum tailored to their specific requirements. Students who undergo this training become eligible for placements, explained Niranjan Nayak, the company's India managing director. "Around 20% of our hiring comes directly from campuses, and these focused cohorts are quite beneficial," Nayak told TOI. The company recruits about 40 fresh graduates annually.

Marvell Technologies hires roughly 100 students from colleges each year, with a significant portion coming through its internship programs. Beyond hiring, these companies also engage in collaborative design and development projects with academic institutions. Delta

Electronics, for instance, partners with IISc, supported by the department of science and technology, to develop compact, fast-charging electric vehicles.

Similarly, Marvell has teamed up with the department of computer science and engineering at IIT Hyderabad to launch a data acceleration and offload research facility. Inaugurated earlier

bad for an embedded design course, and we aim to expand this to 270 colleges. We'll follow the talent wherever it is," said Malini Narayanmoorthi, the company's India head. Renesas hires 80 freshers annually and plans to increase that to 150 next year.

Satya Gupta, president of the VLSI Society of India, believes this is just the start. "Rather than limiting it to one

Top-Paying Chip Engineering Roles		
Role	Why It Pays High	Salary (CTC) ₹lakh
AI / ML Hardware 	Niche, next-gen chips for edge/automotive compute, Neural engine	10-20
Physical Design/RTL 	Core design, Closest to tapeout, impacts cost/yield; requires deep EDA expertise	10-20
DFT & Verification Expert (UVM/SoC-level)	Critical for testability & high-reliability chips; toolchain-heavy	8-12
Process Engineer (at Fab/ATMP)	Scarce in India; global fabs pay high premiums	8-15 Source: IES4

this year, the facility offers joint courses and practical training, giving students access to Marvell's cutting-edge data processor units (DPUs), switches, CXL processors, and network interface controllers (NICs) to foster advancements in AI, networking, and security.

Renesas collaborates with select colleges on chip design and PCB layout. "We have a partnership with IIT Hydera-

company-academic tie-up, expanding collaborations with multiple companies and institutions will boost talent development," he said.

Universities are also stepping up efforts to bridge the skills gap by engaging with industry players. Recently, VIT signed an agreement with Asian Institute of Technology, Thailand to enable students to attend a enable course in semicon design.

Startups drive India's chip ambitions, but large-scale production still distant

October 11, 2025

India's semiconductor consumption, estimated at \$52 billion annually in FY25, is projected to double to over \$100 billion by 2030, driven by rapid digitisation and tech adoption. Yet, its domestic chip manufacturing ecosystem remains nascent, meeting only about 10 per cent of total demand. Of this, less than 5 per cent will consist of chips designed or fabricated in India over the next three years. Experts, however, view this as a promising start, considering that the country is building its semiconductor ecosystem from the ground up.

Globally, semiconductor demand is expected to cross \$650 billion, with key growth drivers being memory and AI related GPUs. In India, however, demand is driven by consumer electronics with smartphones, IT hardware, and digital devices making up approximately 70 per cent of the semiconductor market revenue. It is also being driven by the automotive industry, particularly the emergence of electric vehicles (EVs), industrial electronics, and telecommunications, with the fast deployment of 5G networks.

EV industry

"The EV industry alone has a mind-blowing 36 percent CAGR, which requires more advanced chips in managing the power and control system. The development of telecom infrastructure using 5G and AI in data centers further increases the need for state-of-the-art semiconductors. All these new technologies will bridge the gap with traditional sectors soon," Omprakash Subbarao, CEO, IISc's FSID CORE Labs, commented.

However, demand is not being met domestically just yet. Subbarao highlighted that the development of domestic semiconductor manufacturing is still adolescent, with India just starting commercial production following the introduction of its first indigenous 32-bit microprocessor and some fabrication and packaging plants.

"The local production environment centers on lower-tech packages and chips. Although over 10 large projects amounting to \$18 billion are in the construction to increase fabrication, packaging, and test capacity, the aggregate production is still lower than the current demand. High-end semiconductors are important to industries like AI, telecom, and EVs, and are not available in local supply, making us dependent on imports," he said.

Despite these large investments and government incentives to increase manufacturing capability, the nature of advanced chip factories is complex and capital-intensive, making it years before India can increase the scale of production to satisfy its own demand.

According to Ashok Chandak, CEO and president of IESA and SEMI India, the first wave of local value addition will come from chips assembled in India. Some of these chips will be packaged and assembled domestically to be supplied to the local market. A capacity of around 80 million chips per day is currently being built to support this effort.

"Domestically designed chips by homegrown players will take longer to emerge, as startups need time to design prototypes, complete field testing, and move into mass production, a process that typically involves a long gestation period. These are usually chips specialized for a specific function. We expect that over the next three years, fewer than 5 per cent designed in India chips could be utilized. This is a good starting point since India's journey began recently," he emphasised.

Start-ups lead India's push for homegrown chips, but mass production remains years away

Globally, semiconductor demand is expected to cross \$650 billion, with key growth drivers being memory and AI related GPUs

By Sanjana B

Updated - October 10, 2025 at 08:43 PM | Bengaluru

In India, however, demand is driven by consumer electronics with smartphones, IT hardware, and digital devices making up approximately 70 per cent of the semiconductor market revenue. | Photo Credit: FLORENCE LO

India's semiconductor consumption, estimated at \$52 billion annually in FY25, is projected to double to over \$100 billion by 2030, driven by rapid digitisation and tech adoption. Yet, its domestic chip manufacturing ecosystem remains nascent, meeting only about 10 per cent of total demand. Of this, less than 5 per cent will consist of chips designed or fabricated in India over the next three years. Experts, however, view this as a promising start, considering that the country is building its semiconductor ecosystem from the ground up.

Globally, semiconductor demand is expected to cross \$650 billion, with key growth drivers being memory and AI related GPUs. In India, however, demand is driven by consumer electronics with smartphones, IT hardware, and digital devices making up approximately 70 per cent of the semiconductor market revenue. It is also being driven by the automotive industry, particularly the emergence of electric vehicles (EVs), industrial electronics, and telecommunications, with the fast deployment of 5G networks.

ಭಾರತದ ಎಲೆಕ್ಟ್ರಾನಿಕ್ಸ್ ಉತ್ಪಾದನಾ ವೇಗ ಹೆಚ್ಚಳ

ಉದಯಕಾಲ ನ್ಯೂಸ್, ಬೆಂಗಳೂರು: ಎಲೆಕ್ಟ್ರಾನಿಕ್ಸ್ ಘಟಕಗಳ ತಯಾರಿಕಾ ಯೋಜನೆ (Electronics Components Manufacturing Scheme - ECMS) ಗೆ ದೊರೆತ ಪ್ರತಿಕ್ರಿಯೆ ನಿಜವಾಗಿಯೂ ಅದ್ಭುತವಾಗಿದೆ. 1.15 ಲಕ್ಷ ಕೋಟಿ ಮೌಲ್ಯದ ಪೂಡಿಕೆ ಪ್ರಸ್ತಾವನೆಗಳು ಮತ್ತು ಸುಮಾರು 1.41 ಲಕ್ಷ ಉದ್ಯೋಗಗಳನ್ನು ಸೃಷ್ಟಿಸುವ ಬದ್ಧತೆಯೊಂದಿಗೆ, ಕೇಂದ್ರ ಮತ್ತು ರಾಜ್ಯ ಸರ್ಕಾರಗಳ ಬಲವಾದ ಬೆಂಬಲದೊಂದಿಗೆ, ಭಾರತದ ಎಲೆಕ್ಟ್ರಾನಿಕ್ಸ್ ಬೆಳವಣಿಗೆಯ ಪಥದಲ್ಲಿ ಉದ್ಯಮವು ದೃಢ ಮುನ್ನಡೆಯನ್ನು ತೋರಿಸಿದೆ.

ಈ ಮಹತ್ವದ ಯೋಜನೆಯನ್ನು ಪ್ರಾರಂಭಿಸಿದ್ದಕ್ಕಾಗಿ ಎಲೆಕ್ಟ್ರಾನಿಕ್ಸ್ ಮತ್ತು ಮಾಹಿತಿ ತಂತ್ರಜ್ಞಾನ ಸಚಿವಾಲಯ ವನ್ನು ಐಎಎಸ್ಎ ಮತ್ತು ಸಿಎಂ ಆಫ್ ಸಿಎಂಎಸ್‌ನವರು. ಈ ಯೋಜನೆಯು ಭಾರತದ ಎಲೆಕ್ಟ್ರಾನಿಕ್ಸ್ ಉತ್ಪಾದನಾ ಪರಿಣತ ವ್ಯವಸ್ಥೆಯನ್ನು ಬಲಪಡಿಸುವುದಲ್ಲದೆ, ಹೆಚ್ಚಿನ ಆಂತರಿಕ ಮೌಲ್ಯವರ್ಧನೆಯನ್ನು ಹೆಚ್ಚಿಸುವ ಮೂಲಕ ದೇಶದ ಸಮೀಕರಣದ್ವಾರಾ ನಿರತಿಯ ಚೌಕಟ್ಟಿಗೆ ಪೂರೈಕೆಯಾಗಿದೆ.

ಮಾನ್ಯ ಸಚಿವರು 2025ರ ಎಪ್ರಿಲ್ 26 ರಂದು ಯೋಜನೆಯನ್ನು ಔಪಚಾರಿಕವಾಗಿ ಪ್ರಾರಂಭಿಸುವ ಪರಿಶೀಲನೆಯಲ್ಲಿ, ನೀತಿ ಚರ್ಚೆಯ ಪರಿಶೀಲನೆಯಲ್ಲಿ, ಐಎಎಸ್ಎ ಸಕ್ರಿಯವಾಗಿ ತೊಡಗಿಸಿಕೊಂಡಿದೆ. ಪ್ರಾರಂಭದೊಳಗೆ, ಐಎಎಸ್ಎ ಸಂಸ್ಥೆಯು ಐಎಎಂಎಸ್ ಪ್ರಚಾರ ಮತ್ತು ಅನುಷ್ಠಾನಕ್ಕಾಗಿ ಐದು ಅಂತರರಾಷ್ಟ್ರೀಯ ಸಹಯೋಗಿಗಳು, ರಾಜ್ಯ ಮಟ್ಟದ ಪಾಲುದಾರಿಕೆಗಳು, ವಿತರಕರೊಂದಿಗೆ ಹೆಚ್ಚಿನ ಸಹಭಾಗಿತ್ವ, ಐಎಎಂಎಸ್ ಮತ್ತು ಐಎಎಂ ಕೈಗಾರಿಕೆಗಳಿಗೆ ಬೆಂಬಲ, ಭಾರತದ ನೀತಿಗಳ ಜಾಗೃತಿ

Indian Mobile Congress 2025: Industry hails PM Modi's vision

CHENNAI

“Semiconductors are the invisible backbone of India’s Telecom and Mobile revolution — enabling home-grown 4G/5G stacks, AI evolution, Cybersecurity, reducing dependency on imports, and powering next-gen networks like 6G. At IMC 2025, we witnessed India transition from being a technology consumer to a technology architect.

Several startups have demonstrated their innovative semiconductor-driven solutions for In-

dia’s mobile and telecom sector, showcasing the growing strength of our design and manufacturing ecosystem.

With strong semiconductor capabilities, India can ensure digital sovereignty, drive massive cost efficiencies, and sustain its position as a global technology leader”, said Ashok Chandak, CEO and President, IESA and SEMI India.

Applauding the organisers for the great event inaugurated by Hon’ble PM Shri Narendra Modi and Union Minister Shri. Jyotiraditya Scindhia.

Semiconductors are the invisible backbone of India's Telecom and Mobile revolution: Ashok Chandak, CEO and President, IESA and SEMI India

Bhubaneswar: "Semiconductors are the invisible backbone of India's Telecom and Mobile revolution, enabling home-grown 4G/5G stacks, AI evolution, Cybersecurity, reducing dependency on imports, and powering next-gen networks like 6G. At IMC 2025, we witnessed India transition from being a technology consumer to a technology architect. Several startups have demonstrated their innovative semiconductor-driven solutions for India's mobile and telecom sector,

showcasing the growing strength of our design and manufacturing ecosystem. With strong semiconductor capabilities, India can ensure digital sovereignty, drive massive cost efficiencies, and sustain its position as a global technology leader", said Ashok Chandak, CEO and President, IESA and SEMI India. Applauding the organisers for the great event inaugurated by Hon'ble PM Shri Narendra Modi and Union Minister Shri. Jyotiraditya Scindhia.

India eyes global electronics hub status as Rs 1.15 lakh crore proposals pour in under new component scheme

The scheme has attracted investment proposals worth Rs 1,15,351 crore, nearly double its initial target, and is projected to generate production worth about Rs 10,35,000 crore.

ECMS Response Doubles Targets, Building on SEMICON India 2025 Buzz

IESA Hails Industry and Government Confidence in India's Electronics Growth

The response to the Electronics Components Manufacturing Scheme (ECMS) has been truly extraordinary — with investment proposals worth **₹1.15 lakh crore** and commitments to create nearly **1.41 lakh jobs**, the industry has shown strong confidence in India's electronics growth trajectory with strong support from Central and State governments.

IESA and SEMI congratulate the Ministry of Electronics and Information Technology (MeitY) on launching this landmark scheme, which not only strengthens India's electronics manufacturing ecosystem but also complements the country's semiconductor policy framework by driving higher domestic value addition.

IESA has been actively engaged from the policy-discussion stage to the formal launch by the Hon'ble Minister on 26th April 2025. At the launch, IESA outlined a **FIVE-pronged strategy** for ECMS promotion and execution, focusing on: international collaborations, state-level partnerships, deeper engagement with distributors, support for EMS and OEM industries, global promotion of India's policies, and alignment with semiconductor sector initiatives. These efforts are aimed at empowering MSMEs, strengthening value chains, driving technology adoption, and enhancing ease of doing business.

The proposals span across a wide spectrum of component categories — including Passives, modules, PCBs, displays, Camera, casings, Battery Cells, and more — effectively capturing the end-to-end requirements of electronics manufacturing inputs.

HEADLINES OF THE DAY

ECMS response doubles targets, building on SEMICON India 2025 buzz

October 03, 2025

The response to the Electronics Components Manufacturing Scheme (ECMS) has exceeded expectations, drawing investment proposals worth ₹1.15 lakh crore and commitments to create 1.41 lakh jobs. This surge reflects industry confidence in India's growing electronics ecosystem, reinforced by support from both central and state governments.

दुनिया भर के सेमीकंडक्टर उद्योग को एक नया नजरिया दिया है सेमीकॉन इंडिया 2025 ने

» मदरलैंड संवाददाता

चंडीगढ़। सेमीकॉन इंडिया 2025 वैश्विक सेमीकंडक्टर परिदृश्य में एक ऐतिहासिक मंच के रूप में उभरा है, जिसने सेमीकंडक्टर और इलेक्ट्रॉनिक्स के क्षेत्र में भारत की बढ़ती ताकत को प्रदर्शित किया।

प्रधानमंत्री नरेंद्र मोदी द्वारा इस आयोजन का उद्घाटन किया गया; इस अवसर पर इलेक्ट्रॉनिक्स एवं सूचना प्रौद्योगिकी, रेल और सूचना एवं प्रसारण मंत्री अश्विनी वैष्णव; दिल्ली और ओडिशा के मुख्यमंत्रियों, इलेक्ट्रॉनिक्स एवं सूचना प्रौद्योगिकी तथा वाणिज्य एवं उद्योग राज्य मंत्री जितिन प्रसाद; एस कृष्णन, सचिव डमपजल; अमितेश सिन्हा, सीईओ-आईएसएम एवं अतिरिक्त सचिव भी उपस्थित थे। इस कार्यक्रम में वैश्विक नेता, स्टार्टअप और नीति निमाता एक साथ आए और वैश्विक सेमीकंडक्टर मूल्य श्रृंखला में एक विश्वसनीय केंद्र बनने के भारत के दृष्टिकोण को रेखांकित किया।

21 अगस्त से 29 सितम्बर के बीच इस कार्यक्रम को 3,886 मीडिया कवरेज प्राप्त हुई, जो इस मुद्दे पर अभूतपूर्व दिलचस्पी को दर्शाता है, सेमी इंडिया व आईईएसए के सीईओ व प्रेसिडेंट अशोक चांडक ने इसका सार प्रस्तुत किया।

सेमी इंडिया और आईईएसए के सीईओ और प्रेसिडेंट अशोक चांडक ने कहा कि सेमीकॉन इंडिया 2025 सिर्फ एक आयोजन

नहीं था; यह एक रणनीतिक विजय थी जिसने भारत को सेमीकंडक्टर और इलेक्ट्रॉनिक्स के लिए एक विश्वसनीय, दूरदर्शी और सहयोगी डेस्टिनेशन के रूप में स्थापित किया। इसके मीडिया फुटप्रिंट का विस्तार, डायनमिक सोशल मीडिया एंगेजमेंट के साथ, निवेश

आकर्षित करके, इनोवेशन को बढ़ावा देकर और एक उभरते हुए वैश्विक सेमीकंडक्टर पावरहाउस के रूप में भारत की स्थिति को मजबूत करके दीर्घकालिक लाभ की गारंटी देता है। सबसे महत्वपूर्ण बात यह है कि कई एमओयू और हजारों बिज-टू-बिज मीटिंग्स और आयोजन के दौरान और बाद में कई घोषणाओं से व्यावसायिक अवसरों के खुलने का प्रमाण मिला।

SEMICON India 2025 Redefines Global Semiconductor Narrative

CHANDIGARH: – SEMICON India 2025 has concluded on a historic note, emerging as a landmark platform that showcased India's growing strength in Semiconductors and electronics. Inaugurated by Hon'ble Prime Minister Shri Narendra Modi, in the presence of Shri. Ashwini Vaishnaw, Minister for Electronics & IT, Railways and I&B, Chief Ministers of Delhi and Odisha, MoS for Electronics & IT and Commerce and Industries, Shri Jitin Prasada, Mr. S Krishnan, Secretary MeitY, Mr. Amitesh Sinha CEO ISM and Additional Secretary MeitY, the event brought together global leaders, startups, and policymakers, underscoring India's vision to be a trusted hub in the global Semiconductor value chain. Between 21st August and 29th September, the event achieved 3,886 media coverages, reflecting unprecedented interest, summarised by Ashok Chandak, CEO and President SEMI India and IESA. 150+ TV programs, including Doordarshan, CNBC TV18, ET Now, Bloomberg, AajTak, NDTV, Network 18, ZEE Business, ANI, PTI, IANS and more ensured wide visibility. Crores of People watched SEMICON India bytes all over India in Multiple languages. 564+ articles across leading publications. 3,390+ articles ensuring consistent visibility of the SEMICONDUCTORS. A series of multiple press releases, Global CxO's, Government officials, MoU's and presence of all India Media professionals amplified the event—covering the inauguration, PM's historic Exhibition walk , engagement with startups, and India's accelerated Semiconductor progress—positioning SEMICON India as a global reference point. SEMI and IESA extend heartfelt congratulations to ISM/ MEITY and all stakeholders of the Semiconductor and electronics industry, and express deep gratitude to MEDIA professionals for amplifying the importance of the sector and bringing its developments to citizens across India and the world.

ਸੈਮੀਕੋਨ ਇੰਡੀਆ 2025 ਨੇ ਦੁਨੀਆ ਭਰ ਦੇ ਸੈਮੀਕੰਡਕਟਰ ਉਦਯੋਗ ਨੂੰ ਇੱਕ ਨਵੀਂ ਦ੍ਰਿਸ਼ਟੀ ਦਿੱਤੀ

ਚੰਡੀਗੜ੍ਹ, 8 ਅਕਤੂਬਰ (ਅਮਰਪਾਲ ਨੂਰਪੁਰੀ) ਸੈਮੀਕੋਨ ਇੰਡੀਆ 2025 ਗਲੋਬਲ ਸੈਮੀਕੰਡਕਟਰ ਪਰਿਵੇਸ਼ ਵਿੱਚ ਇੱਕ ਇਤਿਹਾਸਕ ਮੌਕੇ ਵਜੋਂ ਉਭਰਿਆ ਹੈ, ਜਿਸਨੇ ਸੈਮੀਕੰਡਕਟਰ ਅਤੇ ਇਲੈਕਟਰੋਨਿਕਸ ਦੇ ਖੇਤਰ ਵਿੱਚ ਭਾਰਤ ਦੀ ਵਧ ਰਹੀ ਤਾਕਤ ਨੂੰ ਦਰਸਾਇਆ।

ਇਸ ਸਮਾਰੋਹ ਦਾ ਉਦਘਾਟਨ ਪ੍ਰਧਾਨ ਮੰਤਰੀ ਨਰਿੰਦਰ ਮੋਦੀ ਵੱਲੋਂ ਕੀਤਾ ਗਿਆ। ਇਸ ਮੌਕੇ ਉੱਤੇ ਇਲੈਕਟਰੋਨਿਕਸ ਅਤੇ ਜਾਣਕਾਰੀ ਤਕਨਾਲੋਜੀ, ਹੇਲ ਅਤੇ ਜਾਣਕਾਰੀ ਤੇ ਪ੍ਰਸਾਰਣ ਮੰਤਰੀ ਅਸ਼ਵਿਨੀ ਵੈਸ਼ਣਵ; ਦਿੱਲੀ ਅਤੇ ਓਡੀਸ਼ਾ ਦੇ ਮੁੱਖ ਮੰਤਰੀ; ਇਲੈਕਟਰੋਨਿਕਸ ਅਤੇ ਆਈਟੀ ਅਤੇ ਵਪਾਰ ਤੇ ਉਦਯੋਗ ਮੰਤਰਾਲਾ ਦੇ ਰਾਜ ਮੰਤਰੀ ਜਿਤਿਨ ਪ੍ਰਸਾਦ;

ਡੀਐਮਈਆਰਈ ਦੇ ਸਕੱਤਰ ਐਸ. ਕ੍ਰਿਸ਼ਨਨ ਅਤੇ ਆਈਐਸਐਮ ਦੇ ਸੀਈਓ ਤੇ ਅਤਿ ਸਕੱਤਰ ਅਮਿਤੋਸ਼ ਸਿੰਹਾ ਵੀ ਮੌਜੂਦ ਸਨ।

ਇਸ ਇਵੈਂਟ ਵਿੱਚ ਵਿਸ਼ਵ ਪੱਧਰੀ ਨੇਤਾ, ਸਟਾਰਟਅੱਪ ਅਤੇ ਨੀਤੀ ਨਿਰਧਾਰਕ ਇਕੱਠੇ ਹੋਏ ਅਤੇ ਗਲੋਬਲ ਸੈਮੀਕੰਡਕਟਰ ਮੁੱਲ ਚੇਨ ਵਿੱਚ ਭਾਰਤ ਨੂੰ ਇੱਕ ਭਰੋਸੇਯੋਗ ਕੇਂਦਰ ਬਣਾਉਣ ਦੇ ਵਿਜ਼ਨ ਨੂੰ ਉਜਾਗਰ ਕੀਤਾ।

21 ਅਗਸਤ ਤੋਂ 29 ਸਤੰਬਰ ਤੱਕ, ਇਸ ਪ੍ਰੋਗ੍ਰਾਮ ਦੀ 3,886 ਮੀਡੀਆ ਕਵਰੇਜ ਹੋਈ, ਜੋ ਕਿ ਇਸ ਵਿਸ਼ੇ ਵਿੱਚ ਲੋਕਾਂ ਦੀ ਬੇਮਿਸਾਲ ਦਿਲਚਸਪੀ ਨੂੰ ਦਰਸਾਉਂਦੀ ਹੈ।

ਸੈਮੀ ਇੰਡੀਆ ਅਤੇ ਆਈਐਸਐਮ ਦੇ ਸੀਈਓ ਅਤੇ

ਚੇਅਰਮੈਨ ਅਸ਼ੋਕ ਚਾਂਡਕ ਨੇ ਇਹ ਜਾਣਕਾਰੀ ਸਾਂਝੀ ਕੀਤੀ। ਉਨ੍ਹਾਂ ਕਿਹਾ ਕਿ ਸੈਮੀਕੋਨ ਇੰਡੀਆ 2025 ਸਿਰਫ ਇੱਕ ਸਮਾਰੋਹ ਨਹੀਂ ਸੀ; ਇਹ ਇੱਕ ਰਣਨੀਤਿਕ ਜਿੱਤ ਸੀ ਜਿਸਨੇ ਭਾਰਤ ਨੂੰ ਸੈਮੀਕੰਡਕਟਰ ਅਤੇ ਇਲੈਕਟਰੋਨਿਕਸ ਲਈ ਇੱਕ ਭਰੋਸੇਯੋਗ, ਦੂਰਦਰਸ਼ੀ ਅਤੇ ਸਹਿਯੋਗੀ ਮੰਜ਼ਿਲ ਵਜੋਂ ਸਥਾਪਤ ਕੀਤਾ।

ਇਸਦੀ ਮੀਡੀਆ ਪਹੁੰਚ ਅਤੇ ਗਤੀਸ਼ੀਲ ਸੋਸ਼ਲ ਮੀਡੀਆ ਭਾਗੀਦਾਰੀ, ਨਿਵੇਸ਼ ਆਕਰਸ਼ਿਤ ਕਰਕੇ, ਨਵੀਨਤਾ ਨੂੰ ਉਤਸ਼ਾਹਿਤ ਕਰਕੇ ਅਤੇ ਭਾਰਤ ਨੂੰ ਇੱਕ ਉਭਰਦੇ ਹੋਏ ਵਿਸ਼ਵ ਸੈਮੀਕੰਡਕਟਰ ਸ਼ਕਤੀਯੁਗ ਵਜੋਂ ਮਜ਼ਬੂਤ ਕਰਕੇ, ਲੰਬੇ ਸਮੇਂ ਤੱਕ ਲਾਭ ਦੀ ਗਾਰੰਟੀ ਦਿੰਦੀ ਹੈ। ਸਭ ਤੋਂ ਮਹੱਤਵਪੂਰਣ ਗੱਲ ਇਹ ਹੈ ਕਿ ਇਵੈਂਟ ਦੌਰਾਨ ਅਤੇ ਬਾਅਦ ਵਿੱਚ ਹੋਏ ਕਈ ਸਮਝੌਤਿਆਂ, ਹਜ਼ਾਰਾਂ ਬਿਜ਼ਨੈਸ-ਟੂ-ਬਿਜ਼ਨੈਸ ਮੀਟਿੰਗਾਂ ਅਤੇ ਘੋਸ਼ਣਾਵਾਂ ਰਾਹੀਂ ਵਪਾਰਕ ਮੌਕਿਆਂ ਦੇ ਖੁਲਣ ਦਾ ਸਾਫ਼ ਪ੍ਰਮਾਣ ਮਿਲਿਆ।

21 अगस्त से 29 सितंबर के बीच इस कार्यक्रम को 3,886 मीडिया कवरेज प्राप्त हुई, जो इस मुद्दे पर अभूतपूर्व दिलचस्पी को दर्शाता है, सेमी इंडिया व आईईएसए के सीईओ व प्रेसिडेंट अशोक चांडक ने इसका सार प्रस्तुत किया। सेमी इंडिया और आईईएसए के सीईओ और प्रेसिडेंट अशोक चांडक ने कहा कि सेमीकॉन इंडिया 2025 सिर्फ एक आयोजन नहीं था; यह एक

रणनीतिक विजय थी जिसने भारत को सेमीकंडक्टर और इलेक्ट्रॉनिक्स के लिए एक विश्वसनीय, दूरदर्शी और सहयोगी डेस्टिनेशन के रूप में स्थापित किया। इसके मीडिया फूटप्रिंट का विस्तार, डायनमिक सोशल

मीडिया एंगेजमेंट के साथ, निवेश आकर्षित करके, इनोवेशन को बढ़ावा देकर और एक उभरते हुए वैश्विक सेमीकंडक्टर पावरहाउस के रूप में भारत की स्थिति को मजबूत करके दीर्घकालिक लाभ की गारंटी देता है। सबसे महत्वपूर्ण बात यह है कि कई एमओयू और हजारों बिज-टू-बिज मीटिंग्स और आयोजन के दौरान और बाद में कई घोषणाओं से व्यावसायिक अवसरों के खुलने का प्रमाण मिला। अनेक प्रेस विज्ञापनों, ग्लोबल सीएक्सओ, सरकारी अधिकारियों, एमओयू और अखिल भारतीय मीडियाकर्मियों की उपस्थिति ने इस कार्यक्रम को और भी समृद्ध बना दिया - जिसमें उद्घाटन, प्रधानमंत्री की ऐतिहासिक

एक्जीक्यूटिव वॉक, स्टार्टअप्स एंगेजमेंट और भारत की सेमीकंडक्टर क्षेत्र में त्वरित प्रगति शामिल थी - जिसने सेमीकंडक्टर इंडिया को एक वैश्विक संदर्भ बिंदु के रूप में स्थापित किया। इस कार्यक्रम ने डिजिटल प्लैटफॉर्म पर भी असाधारण प्रतिक्रिया उत्पन्न की-लिंक्डइन: 913000 से अधिक इम्प्रेशन, 188,000 से ज्यादा एंगेजमेंट, एक्स (ट्विटर): 36 लाख से अधिक पहुंच, 19 लाख इम्प्रेशन प्राप्त किए, जो पीएमओ, एमईआईटीवाई, आईएसएम, डिजिटल इंडिया सेमी, आईईएसए के माध्यम से रीयल-टाइम अपडेट और एम्पलीफिकेशन द्वारा सहयोग प्राप्त है। सेमीकॉन इंडिया 2025 भारत की

सेमीकंडक्टर यात्रा में एक महत्वपूर्ण बिंदु है - वैश्विक प्रभाव प्रदान करना, प्रतिभागियों के लिए नए अवसर पैदा करना और सेमीकंडक्टर और इलेक्ट्रॉनिक्स पावरहाउस बनने की देश की महत्वाकांक्षा को मजबूत करना, अमितेश सिन्हा, सीईओ आईएसएम और अतिरिक्त सचिव, MEITY ने टिप्पणी की। सेमीकॉन इंडिया 2025 एक ऐसा आयोजन जिसने भारत और दुनिया भर में अद्वितीय दृश्यता प्राप्त की है और एक शक्तिशाली वैश्विक प्रभाव डाला है, जो सेमीकंडक्टर और इलेक्ट्रॉनिक्स में देश की बढ़ती ताकत को प्रदर्शित करता है।

SEMICON India 2025 Redefines Global Semiconductor Narrative

New Delhi: SEMICON India 2025 has concluded on a historic note, emerging as a landmark platform that showcased India's growing strength in Semiconductors and electronics. Inaugurated by Hon'ble Prime Minister Shri Narendra Modi, in the presence of Shri. Ashwini Vaishnaw, Minister for Electronics & IT, Railways and I&B, Chief Ministers of Delhi and Odisha, MoS for Electronics & IT and Commerce and Industries, Shri Jitin Prasada, Mr. S Krishnan, Secretary MeitY, Mr. Amitesh Sinha CEO ISM and Additional Secretary MeitY, the event brought together global leaders, startups, and policymakers, underscoring India's vision to be a trusted hub in the global Semiconductor value chain. SEMICON India 2025 was not just an event; it was a strategic triumph that positioned India as a credible, forward-looking, and collaborative destination for Semiconductors and electronics said Ashok Chandak, CEO and President SEMI India and IESA.

दुनिया भर के सेमीकंडक्टर उद्योग को एक नया नजरिया दिया है सेमीकॉन इंडिया 2025 ने

» मदरलैंड संवाददाता

चंडीगढ़। सेमीकॉन इंडिया 2025 वैश्विक सेमीकंडक्टर परिदृश्य में एक ऐतिहासिक मंच के रूप में उभरा है, जिसने सेमीकंडक्टर और इलेक्ट्रॉनिक्स के क्षेत्र में भारत की बढ़ती ताकत को प्रदर्शित किया।

प्रधानमंत्री नरेंद्र मोदी द्वारा इस आयोजन का उद्घाटन किया गया; इस अवसर पर इलेक्ट्रॉनिक्स एवं सूचना प्रौद्योगिकी, रेल और सूचना एवं प्रसारण मंत्री अश्विनी वैष्णव; दिल्ली और ओडिशा के मुख्यमंत्रियों, इलेक्ट्रॉनिक्स एवं सूचना प्रौद्योगिकी तथा वाणिज्य एवं उद्योग राज्य मंत्री जितिन प्रसाद; एस कृष्णन, सचिव डमपजल; अमितेश सिन्हा, सीईओ-आईएसएम एवं अतिरिक्त सचिव भी उपस्थित थे। इस कार्यक्रम में वैश्विक नेता, स्टार्टअप और नीति निमाता एक साथ आए और वैश्विक सेमीकंडक्टर मूल्य श्रृंखला में एक विश्वसनीय केंद्र बनने के भारत के दृष्टिकोण को रेखांकित किया।

21 अगस्त से 29 सितम्बर के बीच इस कार्यक्रम को 3,886 मीडिया कवरेज प्राप्त हुई, जो इस मुद्दे पर अभूतपूर्व दिलचस्पी को दर्शाता है, सेमी इंडिया व आईईएसए के सीईओ व प्रेसिडेंट अशोक चांडक ने इसका सार प्रस्तुत किया।

सेमी इंडिया और आईईएसए के सीईओ और प्रेसिडेंट अशोक चांडक ने कहा कि सेमीकॉन इंडिया 2025 सिर्फ एक आयोजन

नहीं था; यह एक रणनीतिक विजय थी जिसने भारत को सेमीकंडक्टर और इलेक्ट्रॉनिक्स के लिए एक विश्वसनीय, दूरदर्शी और सहयोगी डेस्टिनेशन के रूप में स्थापित किया। इसके मीडिया फुटप्रिंट का विस्तार, डायनमिक सोशल मीडिया एंगेजमेंट के साथ, निवेश

आकर्षित करके, इनोवेशन को बढ़ावा देकर और एक उभरते हुए वैश्विक सेमीकंडक्टर पावरहाउस के रूप में भारत की स्थिति को मजबूत करके दीर्घकालिक लाभ की गारंटी देता है। सबसे महत्वपूर्ण बात यह है कि कई एमओयू और हजारों बिज-टू-बिज मीटिंग्स और आयोजन के दौरान और बाद में कई घोषणाओं से व्यावसायिक अवसरों के खुलने का प्रमाण मिला।

SEMICON India 2025: વૈશ્વિક સેમિકન્ડક્ટર કથાને મીડિયા ફીચર્સે બિરદાવ્યો

સહવિલા ન્યુઝ, અમદાવાદ, તા. ૬

ભારતના ચિપ્સ અને ઇલેક્ટ્રોનિક્સ ક્ષેત્રમાં વધતી વૈશ્વિક પ્રભાવને ઓગસ્ટ ૨૦૨૫ મીડિયા ફીચર્સે બિરદાવ્યો. SEMICON India 2025 એ ઐતિહાસિક સફળતા સાથે પૂર્ણ થયું, જે ભારતની સેમિકન્ડક્ટર અને ઇલેક્ટ્રોનિક્સ ક્ષેત્રમાં વધતી શક્તિનું પ્રતીક બની રહ્યું છે. આ મહત્વપૂર્ણ ઇવેન્ટનું ઉદ્ઘાટન માનનીય વડાપ્રધાન શ્રી નરેન્દ્ર મોદીએ કર્યું હતું, જેમાં ઉપસ્થિત હતા માનનીય ઇલેક્ટ્રોનિક્સ અને માહિતીપ્રૌદ્યોગિકી, રેલવે અને માહિતી-પ્રસારણ મંત્રી શ્રી અશ્વિની વૈષ્ણવ, ટિલ્કી અને ઓડિશાના મુખ્યમંત્રી શ્રી, ઇલેક્ટ્રોનિક્સ અને ઉદ્યોગ રાજ્ય મંત્રી શ્રી જેટીન પ્રસાદ, સચિવ (મેઈટી) શ્રી એસ.કૃષ્ણન, સીઈઓ ISM અને વધારાના સચિવ શ્રી અમિતેશ સિન્હા. આ કાર્યક્રમમાં વૈશ્વિક ઉદ્યોગ નેતાઓ, સ્ટાર્ટઅપ્સ અને નીતિનિર્માતાઓ એકત્ર થયા, જેમાં ભારતના “વિશ્વસનીય સેમિકન્ડક્ટર વેલ્યુ ચેઇન હબ” બનાવવાના વિઝનને વધુ બળ મળ્યું. ૨૧ ઓગસ્ટથી ૨૮ સપ્ટેમ્બર દરમિયાન SEMICON

India 2025 ને કુલ ૩,૮૮૬ મીડિયા કવરેજ મળ્યા જે ઇવેન્ટ પ્રત્યેનો અદ્વિતીય રસ દર્શાવે છે, એમ SEMI India અને IESA ના સીઈઓ અને પ્રમુખ અશોક ચાંડક એ જણાવ્યું. ૧૫૦થી વધુ દેશી કાર્યક્રમો ના માધ્યમથી ભારતીય દેશભરમાં કરોડો લોકોએ વિવિધ ભાષાઓમાં જોયા. વૈશ્વિક CXO, સરકારી અધિકારીઓ, અને MoU અને સમજૂતી ભારતના મીડિયા પ્રતિનિધિઓની ઉપસ્થિતિએ ઇવેન્ટને વિશાળ ક્ષાનો ઉત્સવ બનાવી દીધો. ઉદ્ઘાટન સમારંભ, વડાપ્રધાનશ્રીનું પ્રદર્શન પરિભ્રમણ, સ્ટાર્ટઅપ્સ સાથેની મુલાકાત અને ભારતના તેજીથી વધતી સેમિકન્ડક્ટર વિકાસને આવરી લેતી આ કવરેજ SEMICON India ને વૈશ્વિક તરીકે સ્થાપિત કર્યું. SEMI અને IESA એ ISM/MeitY તેમજ સમગ્ર સેમિકન્ડક્ટર અને ઇલેક્ટ્રોનિક્સ ઉદ્યોગના તમામ હિતધારકોને અભિનંદન પાઠવ્યા છે. સાથે જ વિશ્વના નાગરિકો સુધી ક્ષેત્રના વિકાસને પહોંચાડવા બદલ મીડિયા પ્રોફેશનલ્સનો હાર્દિક આભાર વ્યક્ત કર્યો છે.

SEMICON 2025 concludes on a positive note

Chennai, Oct 8:

SEMICON India 2025 concluded on a landmark note, showcasing India's growing capabilities in semiconductors and electronics. Inaugurated by Prime Minister Narendra Modi, the event brought together global leaders, startups, and policymakers, reinforcing India's vision to become a trusted hub in the global semiconductor value chain.

The event achieved remarkable media coverage with over 3,886 reports across electronic, print, and online platforms, while social media traction included over 913,000

LinkedIn impressions and 3.6 million reach on X (Twitter).

Multiple press releases, engagement with global CxOs, MoUs, and the PM's exhibition walk amplified India's semiconductor progress, positioning SEMICON India as a reference point for innovation and industry collaboration.

The event also served as a strong catalyst for business and industry development. Thousands of business-to-business meetings, strategic MoUs, and announcements during and after the event created tangible opportunities for startups and global companies alike.

By integrating policymakers, industry leaders, and regional outreach across multiple states, SEMICON India 2025 reinforced India's ambition to emerge as a semiconductor and electronics powerhouse.

SEMICON India 2025 Redefines Global Semiconductor Narrative

CHENNAI

SEMICON India 2025 concluded on a landmark note, emerging as a defining platform that showcased India's growing strength in semiconductors and electronics. Inaugurated by Prime Minister Shri Narendra Modi, in the presence of Union Minister for Electronics & IT, Railways and I&B, Shri Ashwini Vaishnaw, Chief Ministers of Delhi and Odisha, MoS for Electronics & IT and Commerce & Industries Shri Jitin Prasada, and senior officials including Mr. S Krishnan, Secretary MeitY, and Mr. Amitesh Sinha, CEO ISM, the event brought together global leaders, policymakers, and startups. It underscored India's ambition to become a trusted hub in the global semiconductor value chain.

The event achieved record media visibility, registering 3,886

coverages between August 21 and September 29, reflecting unprecedented interest. Ashok Chandak, CEO and President of SEMI India and IESA, highlighted that 150+ TV programs across channels such as Doordarshan, CNBC TV18, ET Now, Bloomberg, AajTak, NDTV, Network 18, and

ZEE Business reached crores of viewers nationwide in multiple languages.

Additionally, 564 print articles and 3,390 online stories consistently highlighted SEMICON India's significance, covering the inauguration, the Prime Minister's historic exhibition walkthrough, startup engagements, MoUs, and India's accelerated progress in semiconductors.

The event also demonstrated strong digital traction. SEMICON India 2025 generated over 913,000 LinkedIn impressions with 188,000 engagements, while achieving a 3.6 million reach on X (Twitter), amplified by real-time updates from PMO, MeitY, ISM, Digital India, SEMI, and IESA.

"SEMICON India 2025 was not just an event; it was a strategic milestone positioning India as a credible, forward-looking, and collaborative destination for

semiconductors and electronics," said Ashok Chandak. The event facilitated thousands of business-to-business meetings, multiple MoU signings, and regional outreach initiatives across several states, opening tangible opportunities for industry collaboration and growth.

Backed by ISM and MeitY, SEMICON India 2025 stands as a pivotal moment in India's semiconductor journey. It successfully combined global majors, startups, and policymakers, creating new business avenues while reinforcing India's ambition to emerge as a global semiconductor and electronics powerhouse. The event's unparalleled visibility, coupled with strong media and digital engagement, ensures long-term benefits—attracting investments, driving innovation, and cementing India's place in the international semiconductor ecosystem.

ECMS response doubles targets, building on SEMICON India 2025 buzz

HT Bureau

GUWAHATI, Oct 7: The response to the Electronics Components Manufacturing Scheme (ECMS) has been truly extraordinary, with investment proposals worth ₹1.15 lakh crore and commitments to create nearly 1.41 lakh jobs.

The industry's strong participation reflects growing confidence in India's electronics growth trajectory, backed by robust support from both the Central and State governments.

The India Electronics and Semiconductor Association (IESA) and SEMI have congratulated the Ministry of Electronics and Information Technology (MeitY) for launching this landmark scheme, which not only strengthens India's electronics manufacturing ecosystem but also complements the

country's semiconductor policy framework by driving higher domestic value addition.

IESA has been actively engaged from the policy-discussion stage through to the formal launch by the Minister on April 26, 2025.

At the launch, IESA outlined a five-pronged strategy for ECMS promotion and execution, focusing on international collaborations, state-level partnerships, deeper engagement with distributors, support for EMS and OEM industries, global promotion of India's policies, and alignment with semiconductor sector initiatives.

These measures aim to empower MSMEs, strengthen value chains, drive technology adoption, and enhance ease of doing business.

The investment proposals cover a wide spectrum of component cat-

egories — including passives, modules, PCBs, displays, cameras, casings, battery cells, and more — effectively encompassing the end-to-end requirements of electronics manufacturing inputs.

The overwhelming response, with proposals nearly twice the original targets, clearly signals that India is well on its way to becoming a global hub for electronic components manufacturing.

This surge in interest builds on the momentum and excitement generated by the SEMICON India 2025 event held last month.

IESA and SEMI reaffirmed their commitment to working closely with the government and industry to ensure that these proposals translate into tangible manufacturing growth, sustainable job creation, and a resilient ecosystem.

भारतीय इलेक्ट्रॉनिक्स मैनुफैक्चरिंग में तेजी ईसीएमएस प्रतिक्रिया से लक्ष्य हुआ दोगुना

नई दिल्ली : इलेक्ट्रॉनिक्स कम्पोनेंट मैनुफैक्चरिंग स्कीम (ईसीएमएस) को मिली प्रतिक्रिया वास्तव में असाधारण रही है - 1.15 लाख करोड़ रुपये के निवेश प्रस्तावों और लगभग 1.41 लाख नौकरियां पैदा करने की प्रतिबद्धताओं के साथ उद्योग ने केंद्र और राज्य सरकारों के मजबूत समर्थन के साथ भारत के इलेक्ट्रॉनिक्स के क्षेत्र में होने वाली उन्नति पर विश्वास जताया है। आईईएसए और सेमी इस ऐतिहासिक योजना को शुरू करने के लिए इलेक्ट्रॉनिक्स और सूचना प्रौद्योगिकी मंत्रालय (एमईआईटीवाई) को बधाई देते हैं, जो न केवल भारत के इलेक्ट्रॉनिक्स मैनुफैक्चरिंग इकोसिस्टम को मजबूत करता है, बल्कि उच्च घरेलू मूल्य

संवर्धन को बढ़ावा देकर देश के सेमीकंडक्टर नीति ढांचे को भी पूरक बनाता है। आईईएसए नीति-चर्चा चरण से लेकर 26 अप्रैल 2025 को मंत्री द्वारा औपचारिक शुभारंभ तक सक्रिय रूप से शामिल रही हैं। शुभारंभ के अवसर पर आईईएसए ने ईसीएमएस के प्रचार और क्रियान्वयन के लिए एक पांच-आयामी रणनीति की रूपरेखा प्रस्तुत की, जिसमें निम्नलिखित पर ध्यान केंद्रित किया गया: अंतर्राष्ट्रीय सहयोग, राज्य-स्तरीय साझेदारी, वितरकों के साथ गहन जुड़ाव, ईएमएस और ओईएम उद्योगों के लिए समर्थन, भारत की नीतियों का वैश्विक प्रचार और सेमीकंडक्टर क्षेत्र की पहलों के साथ समन्वय।

'India's Electronics Manufacturing Momentum Surges: ECMS response doubles targets, building on SEMICON India 2025 Buzz'

By Ashok Chandak,
President, IESA and SEMI India

The response to the Electronics Components Manufacturing Scheme (ECMS) has been truly extraordinary — with investment proposals worth Rs.1.15 lakh crore and commitments to create nearly 1.41 lakh jobs, the industry has shown strong confidence in India's electronics growth trajectory with strong support from Central and State governments.

IESA and SEMI congratulate the Ministry of Electronics and Information Technology (MeitY) on launching this landmark scheme, which not only strengthens India's electronics manufacturing ecosystem but also complements the country's semiconductor policy framework by driving higher domestic value addition.

IESA has been actively engaged from the policy-discussion stage to the formal launch by the Hon'ble Minister on 26 April 2025. At the launch, IESA outlined a **FIVE-pronged** strategy for ECMS promotion and execution, focusing on: international collaborations, state-level partnerships, deeper engagement with distributors, support for EMS and OEM industries, global promotion of India's policies, and alignment with semiconductor sector initiatives. These efforts are aimed at empowering MSMEs, strengthening value chains, driving technology adoption, and enhancing ease of doing business.

The proposals span across a wide spectrum of component categories — including Passives, modules, PCBs, displays, Camera, casings, Battery Cells and more — effectively capturing the end-to-end requirements of electronics manufacturing inputs.

The overwhelming response — with proposals nearly twice the original targets — is a clear signal that India is well on its way to becoming a global hub for electronic components manufacturing. This complements and adds to the major buzz in the semiconductor and electronics industry created by the SEMICON India 2025 event held last month.

IESA and SEMI remains fully committed to working with government and industry to ensure that these proposals translate into tangible manufacturing growth, sustainable job creation, and a resilient ecosystem."

"India's Electronics Manufacturing Momentum Surges: ECMS response doubles targets, building on SEMICON India 2025 Buzz"

Vijayawada, Oct 3: The response to the Electronics Components Manufacturing Scheme (ECMS) has been truly extraordinary — with investment proposals worth Rs. 1.15 lakh crore and commitments to create nearly 1.41 lakh jobs, the industry has shown strong confidence in India's electronics growth trajectory with strong support from Central and State governments. IESA and SEMI congratulate the Ministry of Electronics and Information Technology (MeitY) on launching this landmark scheme, which not only strengthens India's electronics manufacturing ecosystem but also complements the country's semiconductor policy framework by driving higher domestic value addition.

IESA has been actively engaged from the policy-discussion stage to the formal launch by the Hon'ble Minister on 26th April 2025. At the launch, IESA outlined a FIVE-pronged strategy for ECMS promotion and execution, focusing on: international collaborations, state-level partnerships, deeper engagement with distributors, support for EMS and OEM industries, global promotion of India's policies, and alignment with semiconductor sector initiatives. These efforts are aimed at empowering MSMEs, strengthening value chains, driving technology adoption, and enhancing ease of doing business.

The proposals span across a wide spectrum of component categories including Passives,

modules,PCBs, displays, Camera, casings, Battery Cells and more effectively capturing the end-to-end requirements of electronics manufacturing inputs. The overwhelming response with proposals nearly twice the original targets is a clear signal that India is well on its way to becoming a global hub for electronic components manufacturing. This complements and adds to the major buzz in the semiconductor and electronics industry created by the SEMICON India 2025 event held last month. IESA and SEMI remains fully committed to working with government and industry to ensure that these proposals translate into tangible manufacturing growth, sustainable job creation, and a resilient ecosystem."

IESA lauds strong response to ECMS, says India on track to be global electronics hub

Chennai, Oct 4: The India Electronics and Semiconductor Association (IESA) has hailed the resounding industry and government confidence in the country's electronics sector, as the Electronics Components Manufacturing Scheme (ECMS) draws unprecedented interest. Investment proposals worth Rs.1.15 lakh crore and commitments to generate 1.41 lakh jobs have already been received—nearly double the original targets.

Congratulating the Ministry of Electronics and Information Technology (MeitY) on this

landmark initiative, IESA and SEMI noted that ECMS not only strengthens India's electronics manufacturing ecosystem but also complements the national semiconductor policy framework by boosting domestic value addition.

IESA has been actively involved from the policy consultation stage through to the scheme's formal launch on April 26, 2025. At the launch, IESA outlined a five-point strategy to support ECMS implementation—focusing on global collaborations, state-level partnerships, closer engagement with distributors,

support for EMS/OEM industries, international promotion of India's policies, and synergy with semiconductor sector initiatives. These measures aim to empower MSMEs, reinforce supply chains, accelerate technology adoption, and improve ease of doing business.

The proposals cover a wide range of components, including passives, modules, PCBs, displays, cameras, casings, and battery cells—meeting the entire spectrum of electronics manufacturing needs.

The overwhelming response is a strong signal that India is

on track to emerge as a global hub for electronic components manufacturing. It builds on the momentum and industry optimism generated by the successful SEMICON India 2025 event last month.

IESA and SEMI reaffirm their commitment to working alongside government and industry stakeholders to ensure these proposals translate into tangible growth, sustainable employment, and a resilient electronics ecosystem.

India's Electronics Manufacturing Momentum Surges: ECMS Response Doubles Targets, Building on SEMICON India 2025 Buzz: Ashok Chandak, President, IESA and SEMI India

Bhubaneswar : The response to the Electronics Components Manufacturing Scheme (ECMS) has been truly extraordinary with investment proposals worth Rs.1.15 lakh crore and commitments to create nearly 1.41 lakh jobs, the industry has shown strong confidence in India's electronics growth trajectory with strong support from Central and State governments. IESA and SEMI congratulate the Ministry of Electronics and Information Technology (MeitY) on launching this landmark scheme. IESA has been actively en-

gaged from the policy-discussion stage to the formal launch by the Hon'ble Minister on 26th April 2025. At the launch, IESA outlined a FIVE-pronged strategy for ECMS promotion and execution. This complements and adds to the major buzz in the semiconductor and electronics industry created by the SEMICON India 2025 event held last month. IESA and SEMI remains fully committed to working with government and industry to ensure that these proposals translate into tangible manufacturing growth, sustainable job creation, and a resilient ecosystem.

SEMICON India showcases nation as global semiconductor powerhouse

Chennai, Oct 8: SEMICON India 2025, inaugurated by PM Narendra Modi, concluded as a landmark event highlighting India's growing strength in semiconductors and electronics. The event brought together global leaders, startups, and policymakers, reinforcing India's vision as a trusted hub in the global semiconductor value chain.

The event generated 3,886+ media coverages across TV, print, and online platforms, alongside strong social media traction: LinkedIn saw 913,000+ impressions and 188,000+ engagements, while X (Twitter) achieved a 3.6 million+ reach.

A series of MoUs, business-to-business meetings, and startup engagements underscored India's strategic potential in the semiconductor sector. SEMICON India 2025 not only amplified India's global presence but also created tangible business opportunities, fueling innovation and investment, and positioning the nation as a forward-looking semiconductor and

electronics powerhouse. SEMICON India 2025 was not just an event; it was a strategic triumph that positioned India as a credible, forward-looking, and collaborative destination for Semiconductors and electronics. The scale

of its media footprint, coupled with dynamic social media engagement, guarantees long-term benefits by attracting investment, fuelling innovation, and reinforcing India's standing as a global Semiconductor powerhouse in the making.

said Ashok Chandak, CEO and President SEMI India and IESA. Foremost, opening up business opportunities was evidenced by host of MOU's and thousands of Biz to BIZ meetings and several announcements during and after the event.

SEMICON India 2025 Redefines Global Semiconductor Narrative

Chennai, Oct 9, 2025 – SEMICON India 2025 has concluded on a historic note, emerging as a landmark platform that showcased India's growing strength in Semiconductors and electronics. Inaugurated by Hon'ble Prime Minister Shri Narendra Modi, in the presence of Shri. Ashwini Vaishnaw, Minister for Electronics & IT, Railways and I&B, Chief Ministers of Delhi and Odisha, MoS for Electronics & IT and Commerce and Industries, Shri Jitin Prasada, Mr. S Krishnan, Secretary MeitY, Mr. Amitesh Sinha CEO ISM and Additional Secretary MeitY, the event brought together global leaders, startups, and policymakers, underscoring India's vision to be a trusted hub in the global Semiconductor value chain.

Record Media Impact :-

Between 21st August and 29th September, the event achieved 3,886 media coverages, reflecting unprecedented interest, summarised by Ashok Chandak, CEO and President SEMI India and IESA.

● Electronic Media: 150+ TV programs, including Doordarshan, CNBC TV18, ET Now, Bloomberg, AajTak, NDTV, Network 18, ZEE Business, ANI, PTI, IANS and more ensured wide visibility. Crores of People watched SEMICON India bytes all over India in Multiple languages.

● Print Media: 564+ articles across leading publications.

● Online Media: 3,390+ articles ensuring consistent visibility of the SEMICONDUCTORS

A series of multiple press releases, Global CxO's, Gov-

ernment officials, MoU's and presence of all India Media professionals amplified the event—covering the inauguration, PM's historic Exhibition walk, engagement with startups, and India's accelerated Semiconductor progress—positioning SEMICON India as a global reference point. SEMI and IESA extend heartfelt congratulations to ISM/ MEITY and all stakeholders of the Semiconductor and electronics industry, and express deep gratitude to MEDIA professionals for amplifying the importance of the sector and bringing its developments to citizens across India and the world.

Strong Digital & Social Media Presence-The event also generated exceptional traction across digital platforms:

● LinkedIn: Over 913000+ impressions, 188,000+ engage-

ments.

● X (Twitter): Achieved 3.6 million+ reach, 1.9 million impressions, powered by real-time updates and amplification through PMO, MeitY, ISM, Digital India SEMI, IESA.

SEMICON India 2025 was not just an event; it was a strategic triumph that positioned India as a credible, forward-looking, and collaborative destination for Semiconductors and electronics. The scale of its media footprint, coupled with dynamic social media engagement, guarantees long-term benefits by attracting investment, fuelling innovation, and reinforcing India's standing as a global Semiconductor powerhouse in the making, said Ashok Chandak, CEO and President SEMI India and IESA.

SEMICON 2025 concludes on a positive note

Chennai, Oct 8:

SEMICON India 2025 concluded on a landmark note, showcasing India's growing capabilities in semiconductors and electronics. Inaugurated by Prime Minister Narendra Modi, the event brought together global leaders, startups, and policymakers, reinforcing India's vision to become a trusted hub in the global semiconductor value chain.

The event achieved remarkable media coverage with over 3,886 reports across electronic, print, and online platforms, while social media traction included over 913,000

LinkedIn impressions and 3.6 million reach on X (Twitter).

Multiple press releases, engagement with global CxOs, MoUs, and the PM's exhibition walk amplified India's semiconductor progress, positioning SEMICON India as a reference point for innovation and industry collaboration.

The event also served as a strong catalyst for business and industry development. Thousands of business-to-business meetings, strategic MoUs, and announcements during and after the event created tangible opportunities for startups and global companies alike.

By integrating policymakers, industry leaders, and regional outreach across multiple states, SEMICON India 2025 reinforced India's ambition to emerge as a semiconductor and electronics powerhouse.

भारतीय इलेक्ट्रॉनिक्स मैन्युफैक्चरिंग में तेजी

नई दिल्ली, 6 अक्टूबर (एजेंसी)। इलेक्ट्रॉनिक्स कम्पोनेंट मैन्युफैक्चरिंग स्कीम (ईसीएमएस) को मिली प्रतिक्रिया वास्तव में असाधारण रही है। 1.15 लाख करोड़ रुपये के निवेश प्रस्तावों और लगभग 1.41 लाख नौकरियां पैदा करने की प्रतिबद्धताओं के साथ उद्योग ने केंद्र और राज्य सरकारों के मजबूत समर्थन के साथ भारत के इलेक्ट्रॉनिक्स के क्षेत्र में होने वाली उन्नति पर विश्वास जताया है। आईईएसए और सेमी इंडिया के अध्यक्ष अशोक चांडक ने कहा इस ऐतिहासिक योजना को शुरू करने के लिए इलेक्ट्रॉनिक्स और सूचना प्रौद्योगिकी मंत्रालय (एमईआईटीवाई) को बधाई देते हैं, जो न केवल भारत के इलेक्ट्रॉनिक्स मैन्युफैक्चरिंग ईकोसिस्टम को मजबूत करता है, बल्कि उच्च घरेलू मूल्य संवर्धन को बढ़ावा देकर देश के सेमीकंडक्टर नीति ढांचे को भी पूरक बनाता है। आईईएसए नीति-चर्चा चरण से लेकर 26 अप्रैल 2025 को माननीय मंत्री द्वारा औपचारिक शुभारंभ तक सक्रिय रूप से शामिल रही है। शुभारंभ के अवसर पर आईईएसए ने ईसीएमएस के प्रचार और क्रियान्वयन के लिए एक पांच-आयामी रणनीति की रूपरेखा प्रस्तुत की, जिसमें निम्नलिखित पर ध्यान केंद्रित किया गया। अंतर्राष्ट्रीय सहयोग, राज्य-स्तरीय साझेदारी, वितरकों के साथ गहन जुड़ाव, ईएमएस और ओईएम उद्योगों के लिए समर्थन, भारत की नीतियों का वैश्विक प्रचार और सेमीकंडक्टर क्षेत्र की पहलों के साथ समन्वय।

Between 21st August and 29th September, the event generated an unprecedented media impact with 3,886 coverages in total, reflecting strong nationwide interest as highlighted by Ashok Chandak, CEO and President SEMI India and IESA; electronic media accounted for over 150 television programs on leading platforms such as Doordarshan, CNBC TV18, ET Now, Bloomberg, Aaj Tak, NDTV, Network 18, ZEE Business, ANI, PTI, IANS and others, reaching crores of viewers across India in multiple languages and ensuring widespread visibility of SEMICON India, while the print media contributed with over 564 articles in leading publications, and online media further amplified the outreach with more than 3,390 articles, guaranteeing consistent coverage and establishing the event as a landmark in India's semiconductor journey. A series of multiple press releases, Global CxO's, Government officials, MoU's and presence of all India Media professionals amplified the event—covering the inauguration, PM's

historic Exhibition walk, engagement with startups, and India's accelerated Semiconductor progress—positioning SEMICON India as a global reference point. SEMI and IESA extend heartfelt congratulations to ISM/ MEITY and all stakeholders of the Semiconductor and electronics industry, and express deep gratitude to MEDIA professionals for amplifying the importance of the sector and bringing its developments to citizens across India and the world. SEMICON India 2025 was not just an event; it was a strategic triumph that positioned India as a credible, forward-looking, and collaborative destination for Semiconductors and electronics. The scale of its media footprint, coupled with dynamic social media engagement, guarantees long-term benefits by attracting investment, fuelling innovation, and reinforcing India's standing as a global Semiconductor powerhouse in the making, said Ashok Chandak, CEO and President SEMI India and IESA. Foremost, opening up business opportunities was evidenced by host of MOU's and thousands of Biz to BIZ meetings and several announcements during and after the event. Thanks for ISM / MEITY, SEMICON India 2025 stands as a pivotal point for India's Semiconductor journey—delivering global impact, creating new opportunities for participants, and reinforcing the nation's ambition to be a Semiconductor and electronics powerhouse. It is a moment of pride and deep satisfaction for SEMI and IESA members and ISM / MeitY to have successfully organized and executed SEMICON India 2025—an event that has achieved unparalleled visibility across India and worldwide and made a powerful global impact, showcasing the nation's growing

strength in Semiconductors and electronics. By integrating startups, global majors, and policymakers, SEMICON India 2025 created tangible business opportunities, driving collaborations and Regional outreach in multiple states further ensured broad resonance across India's growth corridors. SEMI® is the global industry association connecting over 3,000 member companies and 1.5 million professionals worldwide across the semiconductor and electronics design and manufacturing supply chain. We accelerate member collaboration on solutions to top industry challenges through Advocacy, Workforce Development, Sustainability, Supply Chain Management and other programs. Our SEMICON® expositions and events, technology communities, standards and market intelligence help advance our members' business growth and innovations in design, devices, equipment, materials, services and software, enabling smarter, faster, more secure electronics. Visit www.semi.org, contact a regional office, and connect with SEMI on LinkedIn and X to learn more. IESA is India's premier industry body for ESDM & Intelligent Electronics. Our main objective is to establish India as a leading global hub for electronics manufacturing and design. We work with government ministries, industry players, and academic institutions to facilitate the comprehensive implementation of the Program for Development of Semiconductor and Display Ecosystem. Our team of renowned experts in semiconductor and display technologies is committed to promoting technology solutions that positively impact the lives of 1.3 billion Indians. IESA is India's premier industry body for ESDM & Intelligent Electronics.

SEMICON India 2025 concludes with record global impact

HT Bureau

GUWAHATI, Oct 6: SEMICON India 2025 concluded on a historic note, establishing India's growing global prominence in the semiconductor and electronics sectors.

Inaugurated by Prime Minister Narendra Modi, the mega event was attended by Union Minister for Electronics & IT, Railways and I&B Ashwini Vaishnaw, chief ministers of Delhi and Odisha, Minister of State for Electronics & IT and Commerce & Industries Jitin Prasad, MeitY Secretary S. Krishnan, ISM CEO and Additional Secretary MeitY Amitesh Sinha, among other dignitaries.

Bringing together global industry leaders, startups, and policymakers, the event showcased India's ambition to become a trusted hub in the global semiconductor value chain.

Between August 21 and September 29, SEMICON India 2025 generated a record 3,886 media features, underscoring the unprecedented interest in India's semiconductor ecosystem, according to Ashok Chandak, CEO and President of SEMI India and IESA.

Electronic media coverage included over 150 television programmes on platforms such as Doordarshan, CNBC TV18, ET Now, Bloomberg, AajTak, NDTV, Network18, ZEE Business, ANI, PTI, and IANS, reaching crores of viewers across India in multiple languages.

Print media carried more than 564 articles, while online platforms published over 3,390 stories, ensuring sustained visibility for the semiconductor sector.

A series of press releases, MoUs, and media engagements during the event amplified the government's efforts and private

sector participation.

The Prime Minister's exhibition walk-through, startup interactions, and focus on accelerating India's semiconductor roadmap positioned SEMICON India 2025 as a benchmark in global industry engagement.

Ashok Chandak said SEMICON India 2025 was not merely an event but a strategic milestone that elevated India's credibility as a forward-looking and collaborative semiconductor destination.

"The event's scale and media footprint will yield long-term dividends by attracting investments, driving innovation, and reinforcing India's position as a global semiconductor powerhouse," he noted.

The event recorded strong digital traction, achieving over 9.13 lakh LinkedIn impressions with 1.88 lakh engagements and more than 3.6 million reach on X (Twitter) through real-time updates and amplification by official handles such as PMO, MeitY, ISM, Digital India, SEMI, and IESA.

Multiple MoUs, thousands of business-to-business meetings, and key industry announcements during and after the event reflected its success in catalysing tangible opportunities for the sector.

Organised by SEMI India, IESA, and ISM/MeitY, SEMICON India 2025 served as a catalyst for business and industry development, integrating startups, global majors, and policymakers under one platform. Regional outreach across multiple states ensured the event resonated deeply with India's broader growth narrative.

The organisers expressed gratitude to media professionals and all stakeholders for their contribution in making SEMICON India 2025 a global success and a pivotal moment in India's semiconductor journey.

SEMICON India 2025 Redefines Global Semiconductor Narrative

NEW DELHI, OCT 6: SEMICON India 2025 has concluded on a historic note, emerging as a landmark platform that showcased India's growing strength in Semiconductors and electronics. Inaugurated by Prime Minister Narendra Modi, in the presence of Ashwini Vaishnaw, Minister for Electronics & IT, Railways and I&B, Chief Ministers of Delhi and Odisha, MoS for Electronics & IT and Commerce and Industries, Jitin Prasada, S Krishnan, Secretary MeitY, Amitesh Sinha, CEO ISM and Additional Secretary MeitY, the event brought together global leaders, startups, and policymakers, underscoring India's vision to be a trusted hub in the global Semiconductor value chain. Between 21 August and 29 September, the event achieved 3,886 media coverages, reflecting unprecedented interest, summarised by Ashok Chandak, CEO and President SEMI India and IESA.

SEMICON India 2025 was not just an event; it was a strategic triumph that positioned India as a credible, forward-looking, and collaborative destination for Semiconductors and electronics. The scale of its media footprint, coupled with dynamic social media engagement, guarantees long-term benefits by attracting investment, fuelling innovation, and reinforcing India's standing as a global Semiconductor powerhouse in the making, said Ashok Chandak, CEO and President SEMI India and IESA. Foremost, opening up business opportunities was evidenced by host of MOU's and thousands of Biz to BIZ meetings and several announcements during and after the event.
